

Refund Policy

All spa service sales are final. If there is a valid medical reason as to why you cannot utilize the Medical Spa service that you purchased, we will allow you to use your remaining balance towards other services of equal value. The only time that we will provide a refund for your purchase of a Medical Spa service, is if your complaint is accompanied by a practicing physician's note explaining your medically-inclined inability to utilize the service within 6 months of the purchase date of said service, at which point we will present you with a 50% refund of the original service purchase price.
